Testing Methodologies:	System Testing, Stress Testing, Load Testing, Reliability Testing, Feature Testing, Acceptance Testing, Functionality Testing, Validation
Scripting Tools:	Java, SQL, Unix Shell Scripting, Perl Scripting, VBScript
Systems:	Unix, Linux, Windows

QA Testing Experience

ABC COMPANY -- Sometown, OH
Business solutions software provider with \$25B in annual revenue
Software Quality Assurance Tester, 2/13 to Present
Junior Quality Assurance Tester, 12/12 to 2/13

Provide lifecycle management of automated testing projects on software and large database applications using UFT, QC and various monitoring and scripting tools. Maintain cooperative relationships with developers and communicate with both technical and nontechnical stakeholders.

Accomplishments:

- Promoted from junior QA tester role within two months of hire, outpacing ABC's typical six-month timeline for junior testers. Recognized for developing excellent test plans/scripts and rapidly discovering defects.
 - Isolated deeply embedded software flaw in new version of company's cornerstone software product prior to its 2016 release, saving \$150K in product-replacement costs.
 - Contributed to high-reliability technology releases as a result of thorough testing that helped maintain ABC's industry-leading sales ranking, market share and customer-satisfaction rating.
 - Employed a "test-to-break" approach on testing initiatives and clarified ambiguous requirements to ensure the effectiveness of all test plans.
 - Improved documentation of QA testing practices to enhance their repeatability, saving time and money and encouraging testing standardization and best practices.
-

Education

BS in Computer Science, 12/12 n Xyz University -- Sometown, OH
Professional Development Courses:
Test Improvement for Agile | Performance, Load and Stress Testing | Risk-Driven Software Testing
Mastering Test Design | Security Testing | Mobile Application Testing
